

Junior Mechanical Engineer - Ottawa

Our Company requires a motivated junior mechanical engineer to join our dynamic, fast-paced team. The position requires strong ability to work independently with minimal supervision. Being a self-starter is a must.

Experience in electronics packing and Pro-Engineer is highly desirable.

RESPONSIBILITIES:

- You will be responsible for the design and documentation of mechanical components and assemblies.
- Work as part of a small team, or independently with minimal supervision.
- Interface with clients, attend meetings off-site, and participate in build reviews.
- Interface with vendors and shops.

HIRING CRITERIA:

1. Minimum 2 years of experience in mechanical design.
2. Understanding of machining, sheet metal, casting and injection moulding.
3. Ability to work quickly and efficiently with minimal supervision.
4. Strong 3D CAD skills, Pro-Engineer preferred.
5. Time management skills – ability to multitask and self-manage.
6. Attention to detail.
7. Strong people skills.

Ideal:

- Experience in the design of electronics packaging using Pro-Engineer, along with a background of thermal analysis using Flotherm.

Base salary \$45, 000 to \$55,000
